

# Professional Racquet Stringing

Same Day Stringing Available.  
Guaranteed Next Day Service.

## ✓ Precision Digital Stringing

All racquets are strung on our high tech Gamma 7500 ELS constant pull, digital stringing machine. This machine is the ultimate in accuracy and precision!

## 🕒 Is it time to re-string?

You don't only re-string when your strings are broken. Is the ball going out when you hit it perfectly? Are you hitting the ball as hard as you can but it's not going far? Is your arm/elbow sore after playing when you have used good technique? Your strings could be too loose, too tight, or dead.

## 🌍 World-Class Service

WSC Tennis Pro and Master Racquet Technician, Lenno Lasn and his staff, can advise you in choosing the perfect strings for your game. Knowledgeable advice from pros who care will provide you with a perfect string job every time!

## All Around Synthetic Gut

Good all around performance monofilament string, with a decent feel and average durability. Good performance for the price.

WILSON SYNTH. GUT POWER 16 WILSON SYNTH. GUT POWER 17 Good combination of power, control, & durability	\$25*
PRINCE LIGHTNING XX 16 COLORS-BLUE, PINK, WHITE Cushioned synthetic with good control	\$25*
ASHAWAY SYNTHETIC GUT 16 A slightly textured synthetic gut that combines exceptional responsiveness and durability.	\$25*

**\*PRICES INCLUDE STRING & LABOR  
SAME DAY STRINGING AVAILABLE  
GUARANTEED NEXT DAY SERVICE**

## Hybrid

This is the combination of two different types of string. Most players use this to find the best combination of durability, power, spin enhancement and feel. The combinations are endless – ask your WSC stringing team which combination might work best for you.

## High Performance Synthetic Gut

These strings provide great power & feel and are easy on the arm. The multifilament versions are manufactured to feel similar to natural gut. Great for players with wrist, elbow and arm issues.

HEAD FXP 16 HEAD FXP 17 Shock Dampening with control	\$35*
WILSON NXT 16 WILSON NXT 17 Excellent feel and power, great for arm issues	\$40*

## Specialty

ASHAWAY MONOGUT ZX PRO 1.22/17L Made of 100% Zyex, extremely durable with zero polyester in them, pockets and holds tension like natural gut, and is spin enhancing.	\$40*
---	-------

## Labor Only Stringing

Do you have your own string?  
Labor only stringing is available for \$15.

## Polyester

Great for durability, control and spin enhancement. Be careful – the firmer polyester strings can hard on the wrist, elbow and arm. The softer, more forgiving polyester strings provide the same durability and spin enhancement with less stress on the arm.

HEAD SONIC PRO 16 HEAD SONIC PRO 17 Durable yet softer more forgiving polyester	\$35*
BABOLAT RPM BLAST 16 Very firm and durable control string for very hard hitting string breakers	\$40*
LUXILON 4G 125/16L Extremely playable co-poly, above average tension maintenance, firm, durable, exceptional bite and control.	\$40*
LUXILON ALU POWER 1.25 Very firm and durable control string for very hard hitting string breakers	\$40*
LUXILON ALU ROUGH 1.25 Very firm and durable control string with a rough texture for spin enhancement for very hard hitting string breakers	\$40*
LUXILON TIMO 1.10 (18) Thinnest Luxilon choice with great control and bite	\$40*
